Inspired by the classic, eternal beauty of stone from the ancient quarries of Spain and Italy, Onyx Panels reproduces these noble materials with a level of precision and detail never seen before.

ONYX PANELS is a versatile, translucent, lightweight and easy to work with alternative to real marble, alabaster and onyx. With it, interior designers can create entire marble ceilings, walls, dramatic onyx light fixtures, counters and table tops. columns and furniture etc.

**Thickness**: 1mm, 1.8mm, 3.0mm

**Size**: 8’ x 4’

Range: Onyx Panels come in a wide range of designs and colours.

Adhesives: Onyx Panels are easy to apply with standard laminating system, including most of the conventional adhesives normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.

Lamination: Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board or high quality fibre board. The face of substrate must be smooth and free of grease, wax, dust, chips and other foreign matter.

Lamination: Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board or high quality fibre board. The face of substrate must be smooth and free of grease, wax, dust, chips and other foreign matter.

Cutting and Machining: ‘Onyx Panels’ can be cut, routed, and drilled with most standard wood working tools or equipments. All blades must be sharp. To remove any burrs that may occur in the cutting process, we recommend the use of smooth file to feather all corner edges.

Maintenance: Any cleaning agent containing acids, alkalies or abrasives should not be used to clean the laminate. Exposure to sunlight should be avoided.

We do not recommend any kind of coat like PU base, Melamine, Lamination (wax) on our products. The application of the same will spoil the beauty of the sheet.

Kindly Note: Please DO NOT use any kind of bonding tapes for e.g. Abro as it may spoil the laminate after removal of tape.
